Alicia Reagan is a pastor's wife, a momma to 6 beautiful children, a blogger and above all else a follower of Jesus. Life changed drastically in March 2009 when she was expecting her last baby. She contracted Transverse Myelitis, a rare virus that attacks your spinal cord, and was left completely paralyzed from her ribs down. That day changed her life forever in many horrible and wonderful ways. Alicia believes that we all face "disabilities" in life and they are the reminders that Jesus is able!
